Jasdeep Singh

UX Designer · Enterprise Products · Generative and Agentic AI Experiences

Noida, India | +91 98887 90053 | jas94179@gmail.com | linkedin.com/in/jasdeep-singh-015 | Portfolio

SUMMARY

UX Designer with 3+ years at EY designing enterprise applications, digital products and generative and agentic AI experiences across 50+ projects. Experienced in end-to-end product design, user research, interaction design, design systems and high-fidelity prototyping. Designed a suite of internal AI-powered tools for consulting teams and led the design of award-winning team entries in EY's AI Innovation Challenge. Combines product thinking and strong design foundations with rapid, AI-assisted prototyping. Experienced in client workshops, design reviews and mentoring.

EXPERIENCE

Assistant Manager, UX Design

EY Global Delivery Services, Noida | Sep 2025 – Present

- Lead end-to-end UX design for enterprise and client-facing applications, from research and user flows to high-fidelity, interactive prototypes.
- Brought the 8-tool internal AI suite together on one platform, using Figma Make for the integration designs. Received a User Recognition from its users (Mar 2026).
- Lead designer for an agentic AI workflow for the finance office; the team's entry won Gold in EY's firm-wide AI Innovation Challenge (Feb 2026).
- Design generative AI and conversational experiences, including contextual responses, error handling and user controls.
- Design human-in-the-loop experiences for agentic AI workflows, defining when AI agents act, ask for human approval, escalate exceptions and report outcomes.
- Use Figma Make and AI-assisted tools for research synthesis, ideation and interactive prototyping.
- Mentor a junior designer and support senior designers on Figma, components and design systems.
- Facilitate client workshops and design reviews across multiple sectors.
- Plan and track design work in Agile sprints on Azure DevOps.

UX Designer

EY Global Delivery Services, Bengaluru | Aug 2023 – Sep 2025

- Designed web and mobile experiences for enterprise and client-facing applications, from research to developer handoff.
- Designed a suite of 8 internal AI-powered tools for EY's consulting teams, from interview planning to deal review, with conversational Q&A, structured review flows and inline confidence indicators. Received a Spot Award (Sep 2024).
- Designed, end to end, a thrift shopping mobile app; the team's entry won Silver in EY's firm-wide AI Innovation Challenge (2025).
- Ran usability testing and stakeholder reviews, and turned feedback into design improvements.
- Built and maintained reusable Figma components to keep designs consistent across projects.
- Contributed to 50+ projects across multiple industries and the full design lifecycle.

Web Development Intern

Exposys Data Labs, Bengaluru | Jun 2022 – Jul 2022

- Built responsive web pages using HTML, CSS and JavaScript.

PROJECTS

galla: Restaurant Billing App

Product Design and AI-assisted Development | Oct 2026

- Designed an offline-first Android billing app for small Indian restaurants that runs on the owner's own phone and prints to a low-cost Bluetooth printer.
- Designed role-based access for owners, managers and cashiers, with PIN-based discount approvals and blind cash counts to prevent cash leakage.
- Took the product from concept to an installed, working app in 3 days using AI-assisted development.

Memory, in Your Control

AI Experience Design, self-initiated | 2026

- Designed an AI memory-management experience across 18 web and mobile screens, letting people see, edit and limit what an AI assistant remembers.
- Placed memory controls inside the chat: Undo on every new memory, the memories used shown on each answer, and a prompt before saving sensitive details.
- Led research, a competitive audit, personas and journey mapping, and wrote a 5-participant usability test plan, over 4 weeks.

Los Santos Stories

Figma Make, Figma Makeathon | 2026

- Designed and built a playable 3D top-down open-world game prototype using Figma Make in 1–2 days.
- Selected and featured on Contra's homepage by its curation team.

AWARDS AND RECOGNITION

- **Gold (team award)**, EY firm-wide AI Innovation Challenge (Feb 2026): agentic AI workflow for the finance office, as lead designer
- **Silver (team award)**, EY firm-wide AI Innovation Challenge (2025): thrift shopping mobile app, as designer
- **Spot Award**, EY (Sep 2024): design of a suite of internal AI tools for consulting teams
- **User Recognition**, EY (Mar 2026): from users of the internal AI tool suite
- **Contra homepage feature** (2026): Los Santos Stories, Figma Makeathon project

SKILLS

Product and UX Design: Product Design, User-Centred Design, UX/UI Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, Journey Mapping, Responsive Design, Accessibility (WCAG)

AI Product Design: Generative AI, Agentic AI, Conversational UX, AI Chat Interfaces, AI Dashboards, Human-in-the-Loop Design, Prompt Design, AI Interaction Patterns

Design Systems: Design Systems, Component Libraries, Reusable Components, Design Patterns

Research and Validation: User Research, Usability Testing, Stakeholder Interviews, Competitive Analysis, Design Thinking

Tools and Prototyping: Figma, Figma Make, Figma AI, FigJam, Claude Design, Microsoft Copilot, Replit, Factory AI, AI-assisted Prototyping

Collaboration: Client Workshops, Design Reviews, Developer Handoff, Mentoring, Agile (Scrum), Azure DevOps

EDUCATION

B.Tech, Electronics and Communication Engineering

Dr. B. R. Ambedkar National Institute of Technology (NIT), Jalandhar | 2019 – 2023

- Member, Developer Student Club, NIT Jalandhar (2021 – 2023)

CERTIFICATIONS

- Google UX Design Professional Certificate, Google (Coursera), 2026 | View credential
